

CONTENTS

Introduction

7

Part I

WHAT IS AI?

1. WELCOME TO AI 15
 - What Is AI? 16
 - History of AI 20
 - How AI Works 21
 - AI Myths 29
2. THE ROLE OF AI IN VARIOUS INDUSTRIES 33
 - AI in Healthcare 34
 - AI in Transportation 36
 - AI in Finance 37
 - AI in E-Commerce 39
 - Intro to AI's Role in Education 41

Part II

WHY DO EDUCATORS NEED AI?

3. CHALLENGES EDUCATORS FACE 49
 - Personalization 50
 - Tech Skills 54
 - Data Issues 56
 - Limited Resources 61
 - Intro to How AI Can Help 63
 - Shifting to Accommodate a World with AI 64
4. THE POWER OF PERSONALIZED LEARNING 67
 - What Is Personalized Learning? 67
 - Why Customizing Lessons for Each Student Matters 68
 - Challenges and Criticisms of Personalized Learning 70
 - How AI Tools Can Assist 71

5. CUTTING DOWN BURNOUT AND SAVING TIME	84
What Is Burnout?	85
AI Tools for Teacher Burnout	86
Challenges and Risks of Using AI to Combat Burnout	92

Part III

HOW TO IMPLEMENT AI

6. SAFE AND SMART: DATA-DRIVEN DECISIONS	101
Handling Student Data Wisely	102
The Ethical Use of AI	103
How to Utilize AI in Safeguarding and Gathering Student Data the Ethical Way	105
Legal Aspects of Data and AI	107
Best Practices for Data-Driven Decisions	108
7. STREAMLINING EVERYDAY TASKS	112
Automating Administrative Work	112
Improving Communication	116
Resource Allocation	118
AI in Learning Management Systems (LMS)	123
Student Behavior and Classroom Management	124
Infusing ChatGPT and AI into the Writing Process	127
8. ENHANCING STUDENT ENGAGEMENT	132
Making Classes More Fun with Game-Based Learning	133
AI Tools for Interactive Lessons	135
Boosting Creativity through AI	137
Monitoring Engagement with AI Tools	138
9. STAYING AHEAD	142
Choosing the Best AI Tools	143
Implementing AI Tools in the Classroom	149
Instilling Ethical AI Use in Students	153
Preparing for Future AI Trends in Education	155
Resources for Teachers and Students Who Want to Know More	158

Conclusion
