UNIT ONE

Understanding Health Care Issues

CHAPTER 1 Critical Thinking and the Nursing Process

Paula D. Hopper and Linda S. Williams

Critical Thinking

Critical Thinking Traits

Nursing Knowledge Base

Critical Thinking Skills

Nursing Process

Role of the Licensed Practical Nurse/

Licensed Vocational Nurse

Data Collection

Nursing Diagnosis

Planning Care

Implement Interventions

Evaluate Outcomes

Review Questions

CHAPTER 2 Evidence-Based Practice

Betty Ackley

Reasons for Using EBP

Identifying Nursing Evidence

The EBP Process

Step 1: Ask the Burning Question

Step 2: Search for and Collect the Most

Relevant and Best Evidence Available

Step 3: Think Critically

Step 4: Measure Outcomes Before and

After Change

Step 5: Make It Happen

Step 6: Evaluate the Practice Change

Who Should Provide Evidence-Based Nursing

Care?

EBP, Quality, and Safety: They Belong

Together!

Quality and Safety Education for Nurses

Project

Concern for Patient Safety

Review Questions

CHAPTER 3 Issues in Nursing Practice

Linda S. Williams, Michelle Block, and

James Shannon

Health Care Delivery

Health-Illness Continuum

Health Care Delivery Systems

Factors Influencing Health Care Change

Safe Practice

Economic Issues

Patient Protection and Affordable Care Act

Medicare and Diagnosis-Related Groups

Hospital-Acquired Conditions and

Present-on-Admission Reporting

Medicaid

Managed Health Care

Nursing and the Health Care Team

Collaborative Care

Leadership in Nursing Practice

Leadership Styles

Management Functions

Leadership and Delegation for the LPN/LVN

Educational and Career Opportunities

for LPN/LVNs

Correctional Nursing

Ethics and Values

Ethical Obligations and Nursing

Nursing Code of Ethics

Building Blocks of Ethics

Ethical Decision Making

Legal Concepts

Regulation of Nursing Practice

Health Insurance Portability and

Accountability Act of 1996

Social Media and HIPAA

Nursing Liability and the Law

Health Care System and the LPN/LVN

Review Questions

CHAPTER 4 Cultural Influences on Nursing Care

Bobbi M. Martin

Concepts Related to Culture

Health Care Values, Beliefs, and Practices

Nursing Assessment

Characteristics of Cultural Diversity

Communication Styles

Space

Time Orientation

Social Organization

Environmental Control

Health Care Providers

Biological Variations

Death and Dying and End-of-Life Issues

Ethnic and Cultural Groups in the United States

European American

Spanish/Hispanic/Latino

African American/Black

American Indian/Alaskan Native

Arab American

Asian American

Native Hawaiian/Pacific Islander

Culturally Competent Care

Reflections on Ms. Waters

Review Questions

CHAPTER 5	Complementary and Alternative Modalities	58	CHAPTER 7	Nursing Care of Patients Receiving Intravenous Therapy	90
	<i>Cynthia Barrere and Colleen Delaney</i>			<i>Lynn D. Phillips and Deb Richardson</i>	
	Complementary or Alternative: What's the Difference?	59		Indications for Intravenous Therapy	91
	Introduction of New Systems Into Traditional Western Health Care	59		Types of Infusions	91
	Allopathic/Western Medicine	59		Continuous Infusion	91
	Ayurvedic Medicine	59		Intermittent Infusion	91
	Traditional Chinese Medicine	60		Direct Injection/IV Push	93
	Chiropractic Medicine	60		Patient-Controlled Analgesia (PCA)	93
	Homeopathic Medicine	61		Methods of Infusion	93
	Naturopathic Medicine	61		Gravity Drip	93
	American Indian Medicine	61		Mechanical and Electronic Infusion Devices	94
	Osteopathic Medicine	61		Filters	95
	Complementary and Alternative Modalities	61		Types of Fluids	95
	Herbal Therapy	62		Crystalloid Solutions	95
	Relaxation Therapies	63		Balanced Electrolyte Solutions	95
	Massage Therapy	64		Osmolarity of IV Solutions	95
	Aquatherapy	64		Intravenous Access	96
	Heat and Cold Application	64		Initiating Peripheral Intravenous Therapy	96
	Probiotics	64		Starting a Peripheral (Short-Cannula) Infusion (Phillips, 2010)	96
	Safety and Effectiveness of Alternative Modalities	64		Nursing Process for the Patient Receiving IV Therapy	102
	Role of the LPN/LVN	64		Data Collection	102
	Nursing Applications	65		Nursing Diagnoses, Planning, and Implementation	105
	Review Questions	67		Evaluation	105
				Complications of IV Therapy	105
				Central Venous Access Devices	106
				Nontunneled Central Catheter	106
				Tunneled Catheters	106
				Peripherally Inserted Central Catheter	107
				Ports	107
				Other Therapies	107
				Nutritional Support	107
				Home Intravenous Therapy	107
				Reflections on Mrs. Brown	108
				Review Questions	109
UNIT TWO			CHAPTER 8	Nursing Care of Patients With Infections	111
Understanding Health and Illness	69			<i>Linda S. Williams</i>	
CHAPTER 6	Nursing Care of Patients With Fluid, Electrolyte, and Acid–Base Imbalances	70		The Infection Process	112
	<i>Bruce K. Wilson</i>			Reservoir	112
	Fluid Balance	71		Causative Agents	112
	Control of Fluid Balance	71		Mode of Transmission	114
	Movement of Fluids and Electrolytes in the Body	71		Portal of Entry	115
	Fluid Gains and Fluid Losses	72		Susceptible Host	115
	Fluid Imbalances	72		Portal of Exit	115
	Dehydration	72		The Human Body's Defense Mechanisms	115
	Fluid Excess	74		Skin and Mucous Membranes	115
	Electrolyte Balance	78		Cilia	115
	Electrolyte Imbalances	78		Gastric Juices	115
	Sodium Imbalances	78		Immunoglobulins	115
	Potassium Imbalances	80		Leukocytes and Macrophages	115
	Calcium Imbalances	82		Lysozymes	116
	Magnesium Imbalances	85		Interferon	116
	Acid–Base Balance	85			
	Sources of Acids and Bases	85			
	Control of Acid–Base Balance	86			
	Acid–Base Imbalances	86			
	Respiratory Acidosis	86			
	Metabolic Acidosis	87			
	Respiratory Alkalosis	87			
	Metabolic Alkalosis	87			
	Compensation	87			
	Review Questions	88			

Inflammatory Response	116	Myths and Barriers to Effective Pain Management	151
Immune System	116	Opioid Addiction	151
Infectious Disease	116	Mechanisms of Pain Transmission	152
Laboratory Assessment	116	Pain Transmission: Nociceptive or Neuropathic?	153
Immunity	116	Types of Pain	153
Types of Infectious Diseases	117	Acute Pain	153
Infection Control in the Community	117	Chronic Pain	153
Infection Control in Health Care Agencies	117	Options for Treatment of Pain	153
Hand Hygiene	118	Nonopioid Analgesics	154
Asepsis	118	Opioid Analgesics	154
Infection Prevention Guidelines	119	Opioid Antagonists	156
Prevention of Respiratory Tract Infections	121	Analgesic Adjuvants	156
Prevention of Genitourinary Tract Infections	121	Balanced Approach to Analgesia	157
Prevention of Surgical Wound Infections	122	Scheduling Options	157
Antibiotic-Resistant Infections	122	Patient-Controlled Analgesia	157
Methicillin-Resistant <i>Staphylococcus Aureus</i>	122	World Health Organization Analgesic Ladder	157
Vancomycin-Resistant <i>Enterococci</i>	122	Other Interventions	158
Therapeutic Measures for Infectious Diseases	123	Routes for Medication Administration	158
Antibiotic-Associated Diarrhea	123	Nonpharmacological Therapies	158
Nursing Care	127	Nursing Process for the Patient Experiencing Pain	160
Nursing Process for the Patient With an Infection	127	Data Collection	160
General Infections	127	Nursing Diagnoses, Planning, and Implementation	163
Respiratory Tract Infection	129	Patient Education	166
Gastrointestinal Tract Infection	129	Evaluation	167
Genitourinary Tract Infection	129	Review Questions	169
Review Questions	130		
CHAPTER 9 Nursing Care of Patients in Shock	132	CHAPTER 11 Nursing Care of Patients With Cancer	171
Bobbi M. Martin		Lucy L. Colo and Janice L. Bradford	
Pathophysiology of Shock	133	Review of Normal Anatomy and Physiology of Cells	172
Metabolic and Hemodynamic Changes in Shock	133	Cell Structure	172
Effect on Organs and Organ Systems	134	Nucleus	172
Complications From Shock	135	Genetic Code and Protein Synthesis	172
Classification of Shock	135	Mitosis	174
Hypovolemic Shock	136	Cell Cycle	174
Cardiogenic Shock	137	Cells and Tissues	174
Extracardiac Obstructive Shock	137	Introduction to Cancer Concepts	174
Distributive Shock	137	Benign Tumors	174
Therapeutic Measures for Shock	138	Cancer	174
Nursing Process for the Patient in Shock	138	Nursing Process for the Patient With Cancer	192
Data Collection	138	Data Collection	192
Nursing Diagnoses, Planning, Implementation, and Evaluation	141	Nursing Diagnoses, Planning, and Implementation	193
Review Questions	145	Evaluation	199
CHAPTER 10 Nursing Care of Patients in Pain	147	Survivorship	199
Sheria Grice Robinson, April Hazard Vallerand, and Karen P. Hall		Hospice Care of the Patient With Cancer	199
The Pain Puzzle	148	Oncological Emergencies	200
Definitions of Pain	148	Superior Vena Cava Syndrome	200
Risks of Uncontrolled Pain	148	Spinal Cord Compression	200
Pain and Culture	148	Hypercalcemia	200
Who's the Boss in Pain Management?	148	Review Questions	200

CHAPTER 12 Nursing Care of Patients Having Surgery

Linda S. Williams

Types of Surgery	203
Phases of Surgery	204
Preoperative Phase	205
Factors Influencing Surgical Outcomes	205
Preadmission Surgical Patient Assessment	207
Preoperative Teaching	208
Nursing Process for Preoperative Patients	210
Preoperative Consent	212
Preparation for Surgery	213
Transfer to Surgery Department	214
Post-Transfer to Surgery Department	214
Patient Arrival in Surgery Department	214
Intraoperative Phase	215
Anesthesia	218
Transfer From Surgery	220
Postoperative Phase	221
Admission to the Perianesthesia Care Unit	221
Nursing Process for Postoperative Patients in PACU	221
Family Visitation	223
Discharge From the Perianesthesia Care Unit	223
Transfer to Nursing Unit	224
Nursing Process for Postoperative Patients	224
Postoperative Patient Discharge	233
Review Questions	236

CHAPTER 13 Nursing Care of Patients With Emergent Conditions and Disaster/Bioterrorism Response

Erin Mazur

Primary Survey	238
A—Airway	238
B—Breathing	238
C—Circulation	239
D—Disability/Central Nervous System	239
Secondary Survey	239
Shock	239
Anaphylaxis	240
Pathophysiology	240
Nursing Process for the Patient Experiencing Shock or Anaphylaxis	241
Major Trauma	242
Mechanism of Injury	242
Surface Trauma	243
Head Trauma	243
Spinal Trauma	243
Chest Trauma	244
Abdominal Trauma	244
Orthopedic Trauma	244
Nursing Process for the Patient Experiencing Trauma	245
Burns	247
Hypothermia	248

Nursing Process for the Patient With Hypothermia	248
Frostbite	249
Hyperthermia	250
Nursing Process for the Patient With Hyperthermia	250
Poisoning and Drug Overdose	251
Nursing Process for the Patient With Ingested Poisoning	251
Inhaled Poisons	251
Injected Poisons	251
Insect Stings or Bites	252
Snakebites	252
Near-Drowning	252
Nursing Process for the Near-Drowning Patient	252
Psychiatric Emergencies	253
Nursing Process for the Patient With a Psychiatric Emergency	253
Disaster Response	254
Bioterrorism	254
Recognition of Potential Bioterrorism Agents	254
Smallpox/Variola Major	255
Anthrax	255
Plague	256
Botulism	257
Review Questions	258

UNIT THREE**Understanding Life Span Influences on Health and Illness**

261

CHAPTER 14 Developmental Considerations in the Nursing Care of Adults

Linda S. Williams

Health, Wellness, and Illness	263
The Nurse's Role in Supporting and Promoting Wellness	263
Developmental Stages	263
The Young Adult	263
The Middle-Aged Adult	264
The Older Adult	265
Chronic Illness	266
Incidence of Chronic Illness	267
Types of Chronic Illnesses	267
Gerontological Influence	267
Effects of Chronic Illness	268
Health Promotion	272
Nursing Care	273
Review Questions	275

CHAPTER 15 Nursing Care of Older Adult Patients

Maryanne Pietraniec-Shannon

What Is Aging?	277
Physiological Changes	277

	<i>Common Physical Changes in Older Patients and Their Implications for Nursing</i>	277		<i>Communicating With Patients and Their Loved Ones</i>	310
	<i>Cognitive and Psychological Changes in the Older Patient</i>	288		<i>The Dying Process</i>	311
	<i>Cognition</i>	288		<i>Eating and Drinking</i>	316
	<i>Coping Abilities</i>	288		<i>Changes in Breathing</i>	316
	<i>Depression</i>	288		<i>Oral Secretions</i>	316
	<i>Dementia</i>	289		<i>Temperature Changes</i>	316
	<i>Delirium</i>	289		<i>Bowel and Bladder Changes</i>	316
	<i>Sleep and Rest Patterns</i>	289		<i>Sleeping</i>	316
	<i>Medication Management</i>	289		<i>Mental Status Changes</i>	317
	<i>Health Promotional Role in Nursing Care of the Older Patient</i>	291		<i>Terminal Restlessness</i>	317
	<i>Review Questions</i>	294		<i>Unconsciousness</i>	317
CHAPTER 16	Nursing Care of Patients at Home	295		<i>Care at the Time of Death and Afterward</i>	318

				<i>Type IV Hypersensitivity Reaction</i>	349

Autoimmune Disorders	352	Cardiovascular Disease	395
Pernicious Anemia	352	Nursing Assessment of the Cardiovascular	
Idiopathic Autoimmune Hemolytic Anemia	353	System	395
Hashimoto's Thyroiditis	353	Health History	396
Lupus Erythematosus	353	Physical Examination	397
Ankylosing Spondylitis	358	Diagnostic Tests for the Cardiovascular	
Immune Deficiencies	358	System	401
Hypogammaglobulinemia	358	Noninvasive Studies	401
Review Questions	360	Blood Studies	409
CHAPTER 20 Nursing Care of Patients With HIV		Invasive Studies	410
Disease and AIDS	362	Therapeutic Measures for the Cardiovascular	
Patrice Wade		System	411
History and Incidence	364	Exercise	411
Pathophysiology	364	Smoking Cessation	412
Progression of HIV Infection	365	Diet	412
Prevention	366	Oxygen	412
Mode of Transmission	367	Medications	412
Pre-exposure Prophylaxis (PrEP)	367	Antiembolism Devices	412
Counseling	367	Health Promotion and Lifestyle Changes	413
Sexual Transmission	368	Cardiac Surgery	413
Parenteral Transmission	368	Review Questions	415
Perinatal Transmission	368	CHAPTER 22 Nursing Care of Patients	
Health Care Providers and HIV Prevention	368	With Hypertension	417
HIV Signs and Symptoms	369	Linda S. Williams	
Complications	369	BP Measurement	418
AIDS Wasting Syndrome	369	Pathophysiology of Hypertension	419
HIV-Associated Neurocognitive Disorder	369	Types of Hypertension	420
Cancer and Opportunistic Infections	370	Signs and Symptoms of Hypertension	420
Diagnosis	371	Diagnosis of Hypertension	420
HIV Antibody Tests	371	Risk Factors for Hypertension	420
Complete Blood Cell Count/Lymphocyte		Nonmodifiable Risk Factors	421
Count	371	Modifiable Risk Factors: Lifestyle	422
CD4+/CD8+ T-Lymphocyte Count	371	Therapeutic Measures for Hypertension	422
Viral Load Testing	371	Complications of Hypertension	425
Genotyping	371	Special Considerations	426
General Tests	371	Hypertensive Emergency	426
Therapeutic Measures	372	Hypertensive Urgency	426
ARV Therapy	373	Nursing Process for the Patient With	
Nursing Process for the Adult Patient		Hypertension	426
With HIV/AIDS	375	Data Collection	426
Review Questions	384	Nursing Diagnoses, Planning,	
UNIT FIVE		Interventions, and Evaluation	427
Understanding the Cardiovascular System	387	Review Questions	430
CHAPTER 21 Cardiovascular System Function,		CHAPTER 23 Nursing Care of Patients	
Assessment, and Therapeutic		With Valvular, Inflammatory,	
Measures	388	and Infectious Cardiac or	
Linda S. Williams and Janice L. Bradford		Venous Disorders	432
Normal Cardiovascular System Anatomy		Terri Blevins	
and Physiology	389	Cardiac Valvular Disorders	433
Heart	389	Mitral Valve Prolapse	433
Blood Vessels	391	Mitral Stenosis	436
Blood Pressure	393	Mitral Regurgitation	436
Circuits of Circulation	394	Aortic Stenosis	437
Aging and the Cardiovascular System	394	Aortic Regurgitation	438

Nursing Process for the Patient With a Cardiac Valvular Disorder	439	PR Interval	501
Cardiac Valve Repairs	439	QRS Complex	502
Inflammatory and Infectious Cardiac Disorders	444	QRS Interval	502
Infective Endocarditis	444	T Wave	502
Pericarditis	448	QT Interval	502
Myocarditis	450	U Wave	503
Cardiac Trauma	451	ST Segment	503
Cardiomyopathy	451	Interpretation of Cardiac Rhythms	503
Venous Disorders	453	Six-Step Process for Dysrhythmia Interpretation	503
Thrombophlebitis	453	Normal Sinus Rhythm	505
Review Questions	460	Description	505
CHAPTER 24 Nursing Care of Patients With Occlusive Cardiovascular Disorders	462	Dysrhythmias	505
Maureen McDonald		Dysrhythmias Originating in the Sinoatrial Node	505
Arteriosclerosis	463	Dysrhythmias Originating in the Atria	508
Atherosclerosis	463	Ventricular Dysrhythmias	511
Pathophysiology	463	Cardiac Pacemakers	514
Etiology	464	Permanent Pacemaker Implantation	514
Diagnostic Tests	464	Nursing Care for Patients With Pacemakers	514
Therapeutic Measures	464	Defibrillation	515
Coronary Artery Disease	465	Cardioversion	516
Prevention	465	Other Methods to Correct Dysrhythmias	516
Angina Pectoris	465	Automatic External Defibrillators	516
Nursing Process for the Patient With Atherosclerosis, Coronary Artery Disease, and Angina	470	Implantable Cardioverter Defibrillator	516
Acute Coronary Syndrome	471	Nursing Process for the Patient With Dysrhythmias	517
Unstable Angina	471	Data Collection	517
Myocardial Infarction	471	Nursing Diagnoses, Planning, Implementation, and Evaluation	517
Silent Ischemia	471	Review Questions	520
Sudden Cardiac Death	471	CHAPTER 26 Nursing Care of Patients With Heart Failure	521
Peripheral Vascular System	485	Kathy Berchem	
Arterial Thrombosis and Embolism	485	Overview of Heart Failure	522
Peripheral Arterial Disease	485	Congestive Heart Failure	522
Raynaud's Disease	486	Left-Sided Heart Failure	522
Thromboangiitis Obliterans (Buerger's Disease)	487	Right-Sided Heart Failure	523
Aneurysms	489	Compensatory Mechanisms to Maintain Cardiac Output	524
Varicose Veins	491	Pulmonary Edema (Acute Heart Failure)	524
Venous Insufficiency	491	Pathophysiology	524
Vascular Surgery	494	Signs and Symptoms	524
Lymphatic System	495	Diagnostic Tests	524
Lymphangitis	496	Therapeutic Measures	524
Review Questions	497	Nursing Care	525
CHAPTER 25 Nursing Care of Patients With Cardiac Dysrhythmias	499	Chronic Heart Failure	525
Linda S. Williams		Signs and Symptoms	525
Cardiac Conduction System	500	Complications of Heart Failure	528
Cardiac Cycle	500	Diagnostic Tests	528
Electrocardiogram	500	Therapeutic Measures	528
Electrocardiogram Graph Paper	501	Nursing Process for the Patient With Chronic Heart Failure	533
Components of a Cardiac Cycle	501	Cardiac Transplantation	538
P Wave	501	Surgical Procedure	538

Nutrition Notes	539
Complications	539
Therapeutic Measures	539
Nursing Process for the Preoperative Cardiac Transplant Patient	540
Nursing Process for the Postoperative Cardiac Transplant Patient	540
Coping With Cardiac Transplant	540

UNIT SIX

Understanding the Hematologic and Lymphatic Systems 547

CHAPTER 27 Hematologic and Lymphatic System Function, Assessment, and Therapeutic Measures	548
Janice L. Bradford and Lucy L. Colo	
Normal Hematologic and Lymphatic System	
Anatomy and Physiology	549
Blood	549
Lymphatic System	552
Aging and the Hematologic and Lymphatic Systems	554
Nursing Assessment of Hematologic and Lymphatic Systems	554
Health History	554
Physical Examination	555
Diagnostic Tests for the Hematologic and Lymphatic Systems	556
Blood Tests	556
Coagulation Tests	556
Bone Marrow Biopsy	556
Lymphangiography	558
Lymph Node Biopsy	558
Therapeutic Measures for the Hematologic and Lymphatic Systems	558
Blood Administration	558
Monitoring	559
Review Questions	561

CHAPTER 28 Nursing Care of Patients With Hematologic and Lymphatic Disorders	562
Lucy L. Colo	
Hematologic Disorders	563
Disorders of Red Blood Cells	563
Anemias	563
Polycythemia	571
Hemorrhagic Disorders	572
Disseminated Intravascular Coagulation	572
Idiopathic Thrombocytopenic Purpura	573
Hemophilia	574
Disorders of White Blood Cells	576
Leukemia	576
Multiple Myeloma	580
Pathophysiology	580
Etiology	581
Signs and Symptoms	581
Diagnostic Tests	581

Therapeutic Measures	581
Nursing Process for the Patient With Multiple Myeloma	582
Lymphatic Disorders	582
Hodgkin's Disease	582
Non-Hodgkin's Lymphomas	585
Splenic Disorders	586
Splenectomy	586
Review Questions	588

UNIT SEVEN

Understanding the Respiratory System 591

CHAPTER 29 Respiratory System Function, Assessment, and Therapeutic Measures	592
Paula D. Hopper and Janice L. Bradford	
Normal Respiratory System Anatomy and Physiology	593
Nose and Nasal Cavities	593
Pharynx	593
Larynx	593
Trachea and Bronchial Tree	593
Lungs and Pleural Membranes	593
Mechanism of Breathing	594
Transport of Gases in the Blood	596
Chemical Regulation and Respiration	596
Respiration and Acid-Base Balance	596
Effects of Aging on the Respiratory System	597
Nursing Assessment of the Respiratory System	599
Health History	599
Physical Examination	600
Diagnostic Tests for the Respiratory System	602
Laboratory Tests	602
Blood Tests	602
Other Tests	605
Therapeutic Measures for the Respiratory System	606
Smoking Cessation	606
Deep Breathing and Coughing	607
Huff Coughing	607
Autogenic Drainage	607
Breathing Exercises	607
Positioning	608
Oxygen Therapy	608
Nebulized Mist Treatments	610
Metered-Dose Inhalers	610
Incentive Spirometry	611
Chest Physiotherapy	611
High-Frequency Chest Wall Oscillation Vest	612
Vibratory Positive Expiratory Pressure Device	612
Thoracentesis	612
Chest Drainage	612
Tracheostomy	615
Suctioning	616
Intubation	619

	Mechanical Ventilation	620	Nursing Diagnoses, Planning, and Implementation	667
	Noninvasive Positive-Pressure Ventilation	622	Evaluation	668
	Review Questions	623	Patient Education	668
CHAPTER 30	Nursing Care of Patients With Upper Respiratory Tract Disorders	625	Pulmonary Vascular Disorders	669
	<i>Paula D. Hopper</i>		Pulmonary Embolism	669
	Disorders of the Nose and Sinuses	626	Chest Trauma	670
	Epistaxis	626	Pneumothorax	670
	Nasal Polyps	627	Rib Fractures	672
	Deviated Septum	627	Flail Chest	673
	Rhinoplasty	627	Nursing Process for the Patient With Chest Trauma	673
	Sinusitis	627	Data Collection	673
	Sleep Apnea	628	Nursing Diagnoses, Planning, and Implementation	673
	Infectious Disorders	629	Evaluation	673
	Viral Rhinitis/Common Cold	629	Respiratory Failure	673
	Pharyngitis	631	Acute Respiratory Failure	673
	Laryngitis	631	Acute Respiratory Distress Syndrome/ Acute Lung Injury	674
	Tonsillitis/Adenoiditis	633	Nursing Process for the Patient Experiencing Respiratory Failure	674
	Influenza	633	Lung Cancer	675
	Other Viral Infections	634	Pathophysiology	675
	Malignant Disorders	635	Etiology	675
	Cancer of the Larynx	635	Prevention	676
	Nursing Diagnoses, Planning, and Implementation	636	Signs and Symptoms	676
	Review Questions	639	Complications	676
			Diagnostic Tests	676
			Therapeutic Measures	676
CHAPTER 31	Nursing Care of Patients With Lower Respiratory Tract Disorders	641	Nursing Process for the Patient With Lung Cancer	678
	<i>Paula D. Hopper</i>		Data Collection	678
	Infectious Disorders	642	Nursing Diagnoses, Planning, and Implementation	678
	Acute Bronchitis	642	Evaluation	678
	Bronchiectasis	642	Thoracic Surgery	679
	Pneumonia	643	Nursing Process for the Patient Undergoing Thoracic Surgery	679
	Tuberculosis	646	Postoperative Nursing Care	679
	Nursing Process for the Patient With a Lower Respiratory Tract Infection	653	Review Questions	682
	Restrictive Disorders	653		
	Pleurisy (Pleuritis)	653	UNIT EIGHT	
	Pleural Effusion	653	Understanding the Gastrointestinal, Hepatic, and Pancreatic Systems	685
	Empyema	654	CHAPTER 32	
	Pulmonary Fibrosis	654	Gastrointestinal, Hepatobiliary, and Pancreatic Systems Function, Assessment, and Therapeutic Measures	686
	Atelectasis	654	<i>Lazette V. Nowicki, Linda S. Williams, and Janice L. Bradford</i>	
	Nursing Process for the Patient With a Restrictive Disorder	654	Normal Gastrointestinal, Hepatobiliary, and Pancreatic Systems Anatomy and Physiology	687
	Data Collection	654	Oral Cavity and Pharynx	687
	Nursing Diagnoses, Planning, and Implementation	654	Esophagus	688
	Evaluation	655		
	Obstructive Disorders	655		
	Chronic Obstructive Pulmonary Disease/ Chronic Airflow Limitation	655		
	Asthma	661		
	Cystic Fibrosis	665		
	Nursing Process for the Patient With an Obstructive Disorder	667		
	Data Collection	667		

Stomach	688	Esophageal Cancer	727
Small Intestine	688	Pathophysiology and Etiology	727
Large Intestine	688	Signs and Symptoms	727
Liver	689	Diagnostic Tests	727
Gallbladder	690	Therapeutic Measures	727
Pancreas	690	Nursing Process for the Patient With	
Aging and the Gastrointestinal,		Esophageal Cancer	727
Hepatobiliary, and Pancreatic Systems	690	Hiatal Hernia	728
Nursing Assessment of the Gastrointestinal,		Pathophysiology	728
Hepatobiliary, and Pancreatic Systems	691	Signs and Symptoms	728
Health History	691	Diagnostic Tests	728
Physical Examination	696	Therapeutic Measures	728
Diagnostic Tests for the Gastrointestinal,		Gastroesophageal Reflux Disease	728
Hepatobiliary, and Pancreatic Systems	700	Pathophysiology	728
Laboratory Tests	700	Signs and Symptoms	729
Radiographic Tests	703	Diagnostic Tests	729
Nuclear Scanning	704	Complications	729
Liver Scan	704	Therapeutic Measures	729
Endoscopy	705	Nursing Process for the Patient With	
Gastric Analysis	706	GERD	730
Percutaneous Liver Biopsy	706	Mallory-Weiss Tear	730
Therapeutic Measures for the Gastrointestinal,		Pathophysiology	730
Hepatobiliary, and Pancreatic Systems	709	Signs and Symptoms	730
Gastrointestinal Intubation	709	Diagnostic Tests	730
Enteral Nutrition	709	Therapeutic Measures	730
Gastrointestinal Decompression	713	Nursing Care	730
Parenteral Nutrition	713	Esophageal Varices	730
Peripheral Parenteral Nutrition	714	Gastritis	730
Review Questions	716	Acute Gastritis	730
CHAPTER 33 Nursing Care of Patients With Upper		Chronic Gastritis	731
Gastrointestinal Disorders	717	Stress-Induced Gastritis	731
Lazette V. Nowicki		Peptic Ulcer Disease	731
Nausea and Vomiting	718	Pathophysiology	731
Therapeutic Measures	718	Etiology	731
Nursing Process for the Patient With		Signs and Symptoms	732
Nausea and Vomiting	718	Complications	733
Eating Disorders	719	Diagnostic Tests	733
Anorexia	719	Therapeutic Measures	733
Anorexia Nervosa	719	Nursing Process for the Patient With Peptic	
Bulimia Nervosa	720	Ulcer Disease	735
Nursing Process for the Patient With an		Gastric Bleeding	735
Eating Disorder	720	Signs and Symptoms	737
Obesity	720	Therapeutic Measures	737
Therapeutic Measures	721	Nursing Process for the Patient With	
Bariatric Surgery	721	Gastric Bleeding	737
Nursing Process for the Patient Who Is		Gastric Cancer	737
Obese	724	Signs and Symptoms	737
Oral Health and Dental Care	725	Diagnostic Tests	738
Oral Inflammatory Disorders	726	Therapeutic Measures	738
Stomatitis	726	Gastric Surgery	738
Oral Cancer	726	Nursing Process for the Patient Having	
Pathophysiology and Etiology	726	Gastric Surgery	738
Signs and Symptoms	726	Complications of Gastric Surgery	739
Diagnostic Tests	726	Review Questions	742
Therapeutic Measures	726		
Nursing Care	727		

CHAPTER 34 Nursing Care of Patients With Lower Gastrointestinal Disorders

Lazette V. Nowicki

Problems of Elimination	745
Constipation	745
Diarrhea	747
Inflammatory and Infectious Disorders	749
Appendicitis	749
Peritonitis	751
Diverticulosis and Diverticulitis	751
Nursing Process for the Patient With an Inflammatory or Infectious Disorder	752
Inflammatory Bowel Disease	753
Crohn's Disease	753
Ulcerative Colitis	755
Nursing Process for the Patient With Inflammatory Bowel Disease	756
Irritable Bowel Syndrome	757
Pathophysiology	757
Etiology	758
Signs and Symptoms	758
Diagnostic Tests	758
Therapeutic Measures	758
Nursing Process for the Patient With IBS	759
Abdominal Hernias	760
Pathophysiology and Etiology	760
Prevention	760
Signs and Symptoms	760
Complications	761
Therapeutic Measures	761
Nursing Care	761
Absorption Disorders	761
Pathophysiology and Etiology	761
Signs and Symptoms	762
Complications	762
Diagnostic Tests	762
Therapeutic Measures	762
Nursing Care	762
Intestinal Obstruction	762
Small-Bowel Obstruction	763
Large-Bowel Obstruction	764
Anorectal Problems	765
Hemorrhoids	765
Anal Fissures	765
Anorectal Abscess	765
Nursing Care	765
Lower Gastrointestinal Bleeding	766
Etiology	766
Signs and Symptoms	766
Diagnostic Tests	766
Therapeutic Measures	766
Nursing Care	766
Colorectal Cancer	766
Pathophysiology and Etiology	766
Signs and Symptoms	766
Diagnostic Tests	766
Therapeutic Measures	767

Complications	768
Nursing Process for the Patient With Colorectal Cancer	768
Ostomy and Continent Ostomy Management	769
Ileostomy	769
Colostomy	770
Nursing Process for the Patient With a New or Established Ostomy or Continent Ostomy	771
Rehabilitative Needs	775
Review Questions	777

CHAPTER 35 Nursing Care of Patients With Liver, Pancreatic, and Gallbladder Disorders

Lazette V. Nowicki

Disorders of the Liver	780
Hepatitis	780
Acute Liver Failure	785
Cirrhosis	786
Nutritional Care for Patients With Hepatic Encephalopathy	790
Complication of Alcoholic Liver Disease: Wernicke-Korsakoff Syndrome	790
Liver Transplantation	792
Cancer of the Liver	792
Disorders of the Pancreas	792
Pancreatitis	792
Acute Pancreatitis	793
Chronic Pancreatitis	794
Cancer of the Pancreas	796
Disorders of the Gallbladder	801
Cholecystitis, Cholelithiasis, and Choledocholithiasis	801
Review Questions	807

UNIT NINE**Understanding the Urinary System****CHAPTER 36 Urinary System Function, Assessment, and Therapeutic Measures**

Maureen McDonald and Janice L. Bradford

Normal Urinary System Anatomy and Physiology	811
Kidneys	811
Formation of Urine	812
The Kidneys and Acid-Base Balance	812
Elimination of Urine	812
Characteristics of Urine	813
Aging and the Urinary System	814
Nursing Assessment of the Urinary System	814
Health History	814
Physical Examination	814
Diagnostic Tests for the Urinary System	820
Laboratory Tests	820
Diagnostic Procedures	820
Nursing Process for Diagnostic Tests of the Urinary System Assessment	827

	Therapeutic Measures for the Urinary System	828		Adrenal Glands	876
	Management of Urinary Incontinence	828		Pancreas	877
	Management of Urine Retention	831		Aging and the Endocrine System	877
	Urinary Catheters	831		Nursing Assessment of the Endocrine System	877
	Review Questions	833		Health History	877
CHAPTER 37	Nursing Care of Patients With Disorders of the Urinary System	835		Physical Examination	878
	<i>Maureen McDonald</i>			Diagnostic Tests for the Endocrine System	879
	Urinary Tract Infections	836		Hormone Tests	879
	Risk Factors for Urinary Tract Infections	836		Urine Tests	882
	Signs and Symptoms	837		Other Laboratory Tests	882
	Types of Urinary Tract Infections	837		Nuclear Scanning	882
	Nursing Process for the Patient With a Urinary Tract Infection	838		Radiographic Tests	886
	Urological Obstructions	840		Ultrasound	886
	Urethral Strictures	840		Biopsy	886
	Renal Calculi	841	CHAPTER 39	Review Questions	886
	Hydronephrosis	845		Nursing Care of Patients With Endocrine Disorders	887
	Tumors of the Renal System	846		<i>Paula D. Hopper</i>	
	Cancer of the Bladder	846		Pituitary Disorders	888
	Cancer of the Kidney	849		Disorders Related to Antidiuretic Hormone Imbalance	888
	Renal System Trauma	849		Disorders Related to Growth Hormone Imbalance	891
	Polycystic Kidney Disease	849		Pituitary Tumors	893
	Chronic Renal Diseases	850		Disorders of the Thyroid Gland	894
	Diabetic Nephropathy	850		Hypothyroidism	894
	Nephrotic Syndrome	850		Hyperthyroidism	898
	Nephrosclerosis	851		Nursing Care of the Patient Receiving Radioactive Iodine	900
	Glomerulonephritis	851		Goiter	901
	Pathophysiology	851		Cancer of the Thyroid Gland	902
	Etiology	851		Nursing Process for the Patient Undergoing Thyroidectomy	902
	Symptoms	851		Disorders of the Parathyroid Glands	904
	Complications	852		Hypoparathyroidism	904
	Diagnostic Tests	852		Hyperparathyroidism	905
	Therapeutic Measures	852		Disorders of the Adrenal Glands	906
	Nursing Care	852		Pheochromocytoma	906
	Acute Kidney Injury or Chronic Kidney Disease	852		Adrenocortical Insufficiency/Addison's Disease	907
	Acute Kidney Injury	852		Cushing's Syndrome	908
	Chronic Kidney Disease	855		Nursing Care of the Patient Undergoing Adrenalectomy	910
	Symptoms of Kidney Disease	857		Review Questions	913
	Therapeutic Measures for Kidney Disease	858	CHAPTER 40	Nursing Care of Patients With Disorders of the Endocrine Pancreas	914
	Kidney Transplantation	863		<i>Paula D. Hopper</i>	
	Nursing Process for the Patient With Kidney Disease	863		Diabetes Mellitus	915
	Review Questions	868		Pathophysiology	915
UNIT TEN				Types and Causes	915
Understanding the Endocrine System	871			Signs and Symptoms	918
CHAPTER 38	Endocrine System Function and Assessment	872		Diagnostic Tests	918
	<i>Paula D. Hopper and Janice L. Bradford</i>			Prevention	919
	Normal Endocrine System Anatomy and Physiology	873		Therapeutic Measures	919
	Pituitary Gland	873		Acute Complications of Diabetes	928
	Thyroid Gland	873		Long-Term Complications	930
	Parathyroid Glands	876			

Special Considerations for the Patient Undergoing Surgery	932
Nursing Process for the Patient With Diabetes Mellitus	932
Diabetes Self-Management Education	934
Reactive Hypoglycemia	936
Pathophysiology and Etiology	936
Signs and Symptoms	936
Diagnosis	936
Therapeutic Measures	936
Review Questions	938

UNIT ELEVEN

Understanding the Genitourinary and Reproductive System 941

CHAPTER 41 Genitourinary and Reproductive System Function and Assessment	942
Laura L. McCully, Michelle Johnson, and Janice L. Bradford	
Normal Genitourinary and Reproductive System Anatomy and Physiology	943
Female Reproductive System	943
Male Reproductive System	944
Aging and the Reproductive System	948
Female Reproductive System Data Collection	948
Normal Function Baselines	948
Health History	948
Breast Examination	951
Diagnostic Tests of the Breasts	951
Bone Health Assessment	953
Diagnostic Tests of the Bones	954
Additional Diagnostic Tests of the Female Reproductive System	954
Male Reproductive System Data Collection	958
Health History	958
Physical Examination	958
Testicular Self-Examination	962
Breast Self-Examination	963
Diagnostic Tests of the Male Reproductive System	963
Review Questions	966
CHAPTER 42 Nursing Care of Women With Reproductive System Disorders	968
Laura L. McCully and Debra Perry-Philo	
Breast Disorders	969
Benign Breast Disorders	969
Malignant Breast Disorders	970
Breast Modification Surgeries	975
Menstrual Disorders	977
Flow and Cycle Disorders	977
Dysmenorrhea	977
Premenstrual Syndrome and Premenstrual Dysphoric Disorder	978
Endometriosis	978
Menopause	979

Irritations and Inflammations of the Vagina and Vulva	980
Pathophysiology, Etiologies, and Signs and Symptoms	980
Nursing Care and Education of the Patient Undergoing Diagnostic Testing	980
Nursing Care and Education of the Patient Undergoing Treatment	982
Toxic Shock Syndrome	982
Pathophysiology, Etiologies, and Signs and Symptoms	982
Prevention	983
Nursing Care and Patient Education	983
Disorders Related to the Development of the Genital Organs	983
Pathophysiology, Etiologies, and Signs and Symptoms	983
Diagnostic Tests	983
Therapeutic Measures	983
Nursing Care and Patient Education	983
Displacement Disorders	983
Pathophysiology and Etiologies	983
Diagnostic Tests	983
Therapeutic Measures	983
Nursing Care and Patient Education	983
Cystocele	984
Rectocele	984
Uterine Position Disorders	984
Uterine Prolapse	985
Fertility Disorders	985
Nursing Care and Education of the Patient Undergoing Fertility Testing	986
Therapeutic Measures	987
Nursing Care and Education of the Patient Undergoing Treatment	987
Reproductive Life Planning	988
Oral Contraceptives	988
Contraceptive Implant and Injectable Medications	989
Estrogen-Progestin Contraceptive Ring	989
Transdermal Contraceptive Patch	989
Barrier Methods	989
Spermicides	990
Intrauterine Devices	991
Natural Family Planning	991
Less Effective Methods	992
Ongoing Research: Future Possibilities for Contraceptive Choices	992
Sterilization	992
Pregnancy Termination	992
Types of Abortion	993
Methods of Abortion	993
Ethical Issues	994
Tumors of the Reproductive System	994
Benign Growths	994
Malignant Disorders	996

	Gynecological Surgery	998		UNIT TWELVE	
	Endoscopic Surgeries	998		Understanding the Musculoskeletal System	1043
	Hysterectomy	999			
	Review Questions	1002			
CHAPTER 43	Nursing Care of Male Patients With Genitourinary Disorders	1004	CHAPTER 45	Musculoskeletal Function and Assessment	1044
	<i>Michelle Johnson and Debra Perry-Philo</i>			<i>Sharon Gordon and Janice L. Bradford</i>	
	Prostate Disorders	1005		Normal Musculoskeletal System Anatomy and Physiology	1045
	Prostatitis	1005		Skeletal System Tissues and Their Functions	1045
	Benign Prostatic Hyperplasia	1008		Bone Tissue and Bone Growth	1045
	Cancer of the Prostate	1013		Structure of the Skeleton	1045
	Penile Disorders	1015		Muscle Structure and Arrangements	1046
	Peyronie's Disease	1015		Role of the Nervous System	1047
	Priapism	1015		Neuromuscular Junction	1047
	Phimosis and Paraphimosis	1016		Aging and the Musculoskeletal System	1047
	Cancer of the Penis	1016		Nursing Assessment of the Musculoskeletal System	1048
	Testicular Disorders	1016		Health History	1050
	Cryptorchidism	1016		Physical Examination	1051
	Hydrocele	1016		Psychosocial Data Collection	1051
	Varicocele	1016		Diagnostic Tests for the Musculoskeletal System	1052
	Epididymitis	1016		Laboratory Tests	1052
	Orchitis	1017		Other Diagnostic Tests	1055
	Cancer of the Testicles	1017		Review Questions	1058
	Sexual Functioning	1018	CHAPTER 46	Nursing Care of Patients With Musculoskeletal and Connective Tissue Disorders	1059
	Vasectomy	1018		<i>Sharon Gordon</i>	
	Erectile Dysfunction	1018		Bone and Soft Tissue Disorders	1060
	Infertility	1021		Strains	1060
	Review Questions	1023		Sprains	1060
CHAPTER 44	Nursing Care of Patients With Sexually Transmitted Infections	1025		Dislocations	1060
	<i>Laura L. McCully and Debra Perry-Philo</i>			Bursitis	1060
	Disorders and Syndromes Related to Sexually Transmitted Infections	1026		Rotator Cuff Injury	1060
	Vulvovaginitis	1026		Carpal Tunnel Syndrome	1061
	Urethritis	1026		Fractures	1061
	Proctitis and Enteritis	1026		Osteomyelitis	1072
	Genital Ulcers	1026		Osteoporosis	1073
	Cellular Changes	1027		Paget's Disease	1075
	Pelvic Inflammatory Disease	1027		Bone Cancer	1075
	Sexually Transmitted Infections	1027		Connective Tissue Disorders	1076
	Chlamydia	1027		Gout	1076
	Gonorrhea	1028		Osteoarthritis	1077
	Syphilis	1030		Rheumatoid Arthritis	1083
	Trichomoniasis	1031		Musculoskeletal Surgery	1085
	Herpes	1032		Total Joint Replacement	1085
	Genital Warts	1033		Amputation	1089
	Hepatitis B	1034		Review Questions	1093
	Genital Parasites	1034			
	Reporting of Sexually Transmitted Infections	1034			
	Nursing Process for Sexually Transmitted Infections	1034			
	Data Collection	1034			
	Review Questions	1041			

UNIT THIRTEEN

Understanding the Neurologic System 1095

CHAPTER 47 Neurologic System Function, Assessment, and Therapeutic Measures 1096

Deborah L. Weaver and Janice L. Bradford

Normal Neurologic System Anatomy and Physiology 1097

Nerve Tissue 1097

Spinal Cord 1099

Brain 1099

Meninges 1099

Cranial Nerves 1102

Autonomic Nervous System 1102

Aging and the Nervous System 1103

Nursing Assessment of the Neurologic System 1104

Health History 1106

Physical Examination 1106

Summary of Examination Findings 1111

Diagnostic Tests for the Neurologic System 1112

Laboratory Tests 1112

Lumbar Puncture 1112

X-Ray Examination 1112

Computed Tomography 1113

Magnetic Resonance Imaging 1113

Angiogram 1113

Myelogram 1113

Electroencephalogram 1113

Therapeutic Measures for the Neurologic System 1113

Moving and Positioning 1113

Activities of Daily Living 1114

Communication 1114

Nutrition 1115

Family 1115

Review Questions 1116

CHAPTER 48 Nursing Care of Patients With Central Nervous System Disorders 1118

Deborah L. Weaver

Central Nervous System Infections 1119

Meningitis 1119

Encephalitis 1120

Increased Intracranial Pressure 1121

Pathophysiology and Etiologies 1121

Signs and Symptoms 1122

Monitoring 1122

Nursing Process for the Patient With

a Communicable or Inflammatory

Neurologic Disorder 1122

Headaches 1127

Types of Headaches 1127

Diagnosis of Headaches 1128

Nursing Process for the Patient With a

Headache 1128

Seizure Disorders 1129

Seizures/Epilepsy 1129

Nursing Process for the Patient With

Seizures 1132

Traumatic Brain Injury 1132

Pathophysiology 1132

Etiology 1132

Types of Brain Injury and Signs and

Symptoms 1133

Diagnostic Tests 1134

Therapeutic Measures 1134

Complications 1134

Nursing Process for the Patient With

Traumatic Brain Injury 1135

Rehabilitation 1136

Brain Tumors 1136

Pathophysiology and Etiology 1136

Signs and Symptoms 1137

Diagnostic Tests 1137

Therapeutic Measures 1137

Acute and Long-Term Complications 1138

Nursing Process for the Patient With a

Brain Tumor 1138

Intracranial Surgery 1138

Preoperative Care 1139

Nursing Process for the Postoperative

Care of the Patient Having Intracranial

Surgery 1139

Spinal Disorders 1140

Herniated Disks 1140

Nursing Process for the Patient Having

Spinal Surgery 1142

Spinal Stenosis 1143

Spinal Cord Injuries 1144

Pathophysiology 1144

Etiology and Types 1144

Signs and Symptoms 1144

Complications 1144

Diagnostic Tests 1146

Therapeutic Measures 1146

Emergency Management 1146

Surgical Management 1146

Nursing Process for the Patient With

a Spinal Cord Injury 1147

Neurodegenerative and Neurocognitive

Disorders 1154

Dementia 1154

Delirium 1155

Parkinson's Disease 1156

Huntington's Disease 1164

Alzheimer's Disease 1166

Review Questions 1169

CHAPTER 49 Nursing Care of Patients With Cerebrovascular Disorders 1171

Deborah L. Weaver and John Sturtevant

Transient Ischemic Attack 1172

Stroke (Cerebrovascular Accident)	1172	Nursing Assessment of the Ear and Hearing	1224
Pathophysiology	1172	Diagnostic Tests for the Ear and Hearing	1231
Etiology	1172	Therapeutic Measures for the Ear and Hearing	1232
Risk Factors	1172	Review Questions	1235
Warning Signs of Any Type of Stroke	1173		
Acute Signs and Symptoms	1175	CHAPTER 52 Nursing Care of Patients With Sensory Disorders: Vision and Hearing	1236
Diagnostic Tests	1176	Lazette V. Nowicki	
Therapeutic Measures	1176	Vision Disorders	1237
Prevention of Stroke	1179	Infections and Inflammation	1237
Long-Term Effects of Stroke	1179	Refractive Errors	1242
Cerebral Aneurysm, Subarachnoid Hemorrhage, and Intracranial Hemorrhage	1180	Blindness	1243
Pathophysiology and Etiology	1180	Diabetic Retinopathy	1246
Signs and Symptoms	1181	Retinal Detachment	1247
Diagnostic Tests	1181	Glaucoma	1248
Therapeutic Measures	1181	Cataracts	1250
Complications	1182	Macular Degeneration	1251
Rehabilitation	1182	Trauma	1253
Nursing Process for the Patient With a Cerebrovascular Disorder	1183	Hearing Disorders	1254
Review Questions	1190	Hearing Loss	1254
CHAPTER 50 Nursing Care of Patients With Peripheral Nervous System Disorders	1192	External Ear	1257
Deborah L. Weaver		Middle Ear, Tympanic Membrane, and Mastoid Disorders	1262
Neuromuscular Disorders	1193	Inner Ear	1266
Multiple Sclerosis	1193	Review Questions	1270
Myasthenia Gravis	1199		
Etiology	1199	UNIT FIFTEEN	
Amyotrophic Lateral Sclerosis	1201	Understanding the Integumentary System	1271
Guillain-Barré Syndrome	1202		
Postpolio Syndrome	1203	CHAPTER 53 Integumentary System Function, Assessment, and Therapeutic Measures	1272
Cranial Nerve Disorders	1205	Rita Bolek Trofino, Marty Kohn, and Janice L. Bradford	
Trigeminal Neuralgia	1205	Normal Integumentary System Anatomy and Physiology	1273
Bell's Palsy	1205	Epidermis, Dermis, and Hypodermis	1273
Review Questions	1209	Hair	1274
		Nails	1274
UNIT FOURTEEN		Receptors	1274
Understanding the Sensory System	1211	Glands	1274
CHAPTER 51 Sensory System Function, Assessment, and Therapeutic Measures: Vision and Hearing	1212	Blood Vessels	1274
Lazette V. Nowicki and Janice L. Bradford		Aging and the Integumentary System	1274
Vision	1213	Nursing Assessment of the Integumentary System	1275
Normal Anatomy and Physiology of the Eye	1213	Health History	1275
Aging and the Eye	1215	Physical Examination	1275
Nursing Assessment of the Eye and Visual Status	1216	Diagnostic Tests for the Integumentary System	1281
Diagnostic Tests for the Eye	1220	Laboratory Tests	1281
Therapeutic Measures for the Eye and Vision	1221	Skin Biopsy	1281
Hearing	1224	Other Diagnostic Tests	1281
Normal Anatomy and Physiology of the Ear	1224		
Aging and the Ear	1224		

Therapeutic Measures for the Integumentary System	1281	Nursing Process for a Patient With a Burn Injury	1330
Open Wet Dressings	1281	Data Collection	1330
Topical Medications	1282	Nursing Diagnoses, Planning, Implementation, and Evaluation	1330
Dressings	1282	Review Questions	1336
Review Questions	1286		
CHAPTER 54 Nursing Care of Patients With Skin Disorders	1288	UNIT SIXTEEN	
Marty Kohn and Rita Bolek Trofino		Understanding Mental Health Care	1339
Pressure Ulcers	1289	CHAPTER 56 Mental Health Function, Assessment, and Therapeutic Measures	1340
Pathophysiology and Etiology	1289	Marina Martinez-Kratz	
Prevention	1289	Review of Neurological Anatomy and Physiology	1341
Signs and Symptoms	1292	Mental Health and Mental Illness	1341
Complications	1294	Etiologies	1343
Diagnostic Tests	1294	Social and Cultural Environments	1343
Therapeutic Measures	1294	Spirituality and Religion	1343
Other Therapies	1295	Nursing Assessment of Mental Health	1343
Nursing Process for the Patient With a Pressure Ulcer	1296	Diagnostic Tests	1343
Inflammatory Skin Disorders	1298	Distinguishing Physical Versus Mental Health Disorders	1346
Dermatitis	1298	Coping and Ego Defense Mechanisms	1346
Psoriasis	1301	Effective Coping Skills	1346
Infectious Skin Disorders	1302	Ineffective Coping Skills	1347
Herpes Simplex	1303	Therapeutic Measures	1347
Herpes Zoster (Shingles)	1304	Therapeutic Communication	1348
Fungal Infections	1305	Milieu	1350
Cellulitis	1305	Psychopharmacology	1350
