

Frontmatter	pp i-iv
Contents	pp v-vi
List of Figures	pp vii-xi
List of Tables	pp xii-xiii
List of Contributors	pp xiv-xv
Acknowledgments	pp xvi-xviii
<u>1 - Introduction</u>	pp 1-8
<u>Part I - Data collection</u>	pp 9-10
<u>2 - Ethics in linguistic research</u>	pp 11-26
By Penelope Eckert , <i>Stanford University</i>	
<u>3 - Judgment data</u>	pp 27-50
By Carson T. Schütze , <i>University of California</i> , Jon Sprouse , <i>University of Connecticut</i>	
<u>4 - Fieldwork for language description</u>	pp 51-73
By Shobhana Chelliah , <i>University of North Texas</i>	
<u>5 - Population samples</u>	pp 74-95
By Isabelle Buchstaller , <i>Leipzig University</i> , Ghada Khattab , <i>Newcastle University</i>	
<u>6 - Surveys and interviews</u>	pp 96-115
By Natalie Schilling , <i>Georgetown University</i>	
<u>7 - Experimental research design</u>	pp 116-134
By Rebekha Abbuhl , <i>California State University</i> , Susan Gass , <i>Michigan State University</i> , Alison Mackey , <i>Georgetown University</i>	
<u>8 - Experimental paradigms in psycholinguistics</u>	pp 135-168
By Elsi Kaiser , <i>University of Southern California</i>	
<u>9 - Sound recordings: acoustic and articulatory data</u>	pp 169-194
By Elizabeth Zsiga , <i>Georgetown University</i>	
<u>10 - Ethnography and recording interaction</u>	

By Erez Levon , <i>Queen Mary University of London</i>	pp 195-215
11 - Using historical texts	
By Ans van Kemenade , <i>Radboud University</i> , Bettelou Los , <i>Radboud University</i>	pp 216-232
Part II - Data processing and statistical analysis	
12 - Transcription	pp 233-234
By Naomi Nagy , <i>University of Toronto</i>	pp 235-256
13 - Creating and using corpora	
By Stefan Th. Gries , <i>University of California</i> , John Newman , <i>University of Alberta</i>	pp 257-287
14 - Descriptive statistics	
By Daniel Ezra Johnson , <i>Lancaster University</i>	pp 288-315
15 - Basic significance testing	
By Stefan Th. Gries , <i>University of California</i>	pp 316-336
16 - Multivariate statistics	
By R. Harald Baayen , <i>Eberhard Karls University and University of Alberta</i>	pp 337-372
Part III - Foundations for Data Analysis	
17 - Acoustic analysis	pp 373-374
By Paul Boersma , <i>University of Amsterdam</i>	pp 375-396
18 - Constructing and supporting a linguistic analysis	
By John Beavers , <i>The University of Texas</i> , Peter Sells , <i>University of York</i>	pp 397-421
19 - Modeling in the language sciences	
By Willem Zuidema , <i>University of Amsterdam</i> , Bart de Boer , <i>Vrije Universiteit Brussel</i>	pp 422-439
20 - Variation analysis	
By James A. Walker , <i>York University</i>	pp 440-459
21 - Discourse analysis	
By Susan Ehrlich , <i>York University</i> , Tanya Romaniuk , <i>Portland State University</i>	pp 460-493

22 - Studying language over time

By [Hélène Blondeau](#), *University of Florida*

pp 494-518

Index

pp 519-525
