

Section One: Respiratory Disorders

Chapter 1. Sore Throat

Chapter 2. Cough

Chapter 3. Respiratory Distress

Chapter 4. Earache

Chapter 5. Apparent Life-Threatening Event - Brief Resolved Unexplained Event

Section Two: Cardiac Disorders

Chapter 6. Syncope and Dizziness

Chapter 7. Chest Pain

Chapter 8. Murmurs

Section Three: Gastrointestinal Disorders

Chapter 9. Failure to Thrive

Chapter 10. Abdominal Pain

Chapter 11. Diarrhea

Chapter 12. Vomiting and Regurgitation

Chapter 13. Gastrointestinal Bleeding

Chapter 14. Hepatomegaly

Chapter 15. Jaundice

Chapter 16. Constipation

Chapter 17. Abdominal Masses

Section Four: Genitourinary Disorders

Chapter 18. Dysuria

Chapter 19. Proteinuria

Chapter 20. Hematuria

Chapter 21. Acute and Chronic Scrotal Swelling

Chapter 22. Menstrual Problems and Vaginal Bleeding

Chapter 23. Disorders of Sexual Development

Section Five: Developmental and Psychiatric Disorders

Chapter 24. Intellectual and Developmental Disability

Chapter 25. Dysmorphology

Chapter 26. The Irritable Infant

Chapter 27. Unusual Behaviors

Section Six: Neurosensory Disorders

Chapter 28. Headaches

Chapter 29. Hypotonia, Weakness, and Stroke

Chapter 30. Paroxysmal Disorders

Chapter 31. Altered Mental Status

Chapter 32. Eye Disorders

Section Seven: Musculoskeletal Disorders

Chapter 33. Arthritis

Chapter 34. Gait Disturbances

Chapter 35. Back Pain in Children and Adolescents

Section Eight: Hematologic Disorders

Chapter 36. Lymphadenopathy and Neck Masses

Chapter 37. Pallor and Anemia

Chapter 38. Bleeding and Thrombosis

Section Nine: Infectious Diseases

Chapter 39. Fever

Chapter 40. Fever and Rash

Chapter 41. Recurrent Fever, Infections, Immune Disorders, and Autoinflammatory Diseases

Section Ten: Endocrine and Metabolic Disorders

42. Disorders of Puberty

43. Short Stature

44. Hypoglycemia

45. Urinary Incontinence and Polyuria

46. Acid-Base and Electrolyte Disturbances

Section Eleven: Dermatology

47. Congenital Cutaneous Lesions and Infant Rashes

48. Acquired Rashes in the Older Child
