## Contents

<b>1</b>	<b>Contents and Structure</b> . . . . .	1
<b>2</b>	<b>Introduction to Business Informatics</b> . . . . .	5
2.1	What Is Business Informatics? . . . . .	6
2.2	Tasks and Objectives . . . . .	8
2.3	Risks and Opportunities of IT . . . . .	9
2.4	The Subject of Business Informatics . . . . .	10
2.5	Relevance and Key Jobs in Business Informatics . . . . .	13
2.6	Review Questions . . . . .	20
	References . . . . .	21
<b>3</b>	<b>Technical Foundations: Computer Systems</b> . . . . .	23
3.1	Computer: The First Development Leap . . . . .	25
3.1.1	Bits and Bytes . . . . .	26
3.1.2	The von Neumann Architecture . . . . .	28
3.1.3	Central Processing Unit (CPU) . . . . .	29
3.1.4	ROM and RAM . . . . .	34
3.1.5	Buses . . . . .	35
3.1.6	Internal and External Memories . . . . .	39
3.1.7	Data Storage Devices . . . . .	41
3.1.8	Types of Computers . . . . .	45
3.2	Centralized IT: The Second IT Development Leap . . . . .	46
3.3	Decentralized IT: The Third Development Leap . . . . .	48
3.4	The Internet: The Fourth IT Development Leap . . . . .	49
3.5	Convergence: The Fifth IT Development Leap . . . . .	52
3.6	Review Questions . . . . .	53
	References . . . . .	55

<b>4</b>	<b>Technical Foundations: Computer Networks</b>	57
4.1	Benefits and Objectives of Computer Networks	58
4.2	Types of Computer Networks: LANs, WANs and GANs	61
4.3	Network Coordination Types	65
4.4	Topologies of Computer Networks	68
4.5	Transfer Media	71
4.6	Reference Models in Communication Networks	75
4.6.1	The OSI Reference Model	75
4.6.2	The TCP/IP Reference Model	78
4.7	Internet, Intranet and Extranet	82
4.7.1	Internet Services and Applications	84
4.7.2	Retrieval of a Web Page	86
4.7.3	Structure and Usage of the Intranet	87
4.7.4	Objectives and Uses of the Extranet	88
4.8	Review Questions	89
	References	90
<b>5</b>	<b>Business Applications</b>	93
5.1	System, Development and Application Software	94
5.2	Application Systems	98
5.2.1	Administration and Logistics Systems	102
5.2.2	Analysis, Planning and Control Systems	103
5.2.3	Cross-Sectional Systems	104
5.2.4	Information and Communication Systems	106
5.3	Integrated Information Systems	106
5.3.1	The Information Systems Pyramid	107
5.3.2	Types of Integrated Information Systems	108
5.3.3	Benefits and Disadvantages	110
5.4	ERP Systems	112
5.5	Review Questions	119
	References	120
<b>6</b>	<b>Database Systems</b>	123
6.1	Introduction to Database Systems	124
6.2	Data and Database Structures	127
6.3	Design and Modeling of Databases	128
6.4	Relational Databases and SQL	133
6.5	An Example of Data Modeling	136
6.6	Data Warehouse (DW)	139
6.7	NoSQL Database Systems	143
6.8	In-Memory Database Systems	146
6.9	Review Questions	148
	References	149

<b>7</b>	<b>Management Support Systems and Business Intelligence</b> . . . . .	151
7.1	Variations of MSS . . . . .	152
7.2	Data Analysis and Data Mining . . . . .	155
7.2.1	Basics of Data Analysis and Data Mining . . . . .	155
7.2.2	Tasks and Methods of Data Analysis and Data Mining . . . . .	157
7.3	Business Intelligence and Business Analytics . . . . .	161
7.4	Artificial Intelligence and Machine Learning . . . . .	165
7.4.1	Basics of Artificial Intelligence . . . . .	165
7.4.2	Artificial Intelligence Applications and Systems . . . . .	166
7.4.3	Self-Learning Systems and Machine Learning . . . . .	170
7.5	Review Questions . . . . .	171
	References . . . . .	172
<b>8</b>	<b>Business Process Management</b> . . . . .	175
8.1	Key Aspects and Definitions . . . . .	176
8.1.1	Processes and Business Processes . . . . .	177
8.1.2	Business Process Management . . . . .	179
8.2	Organization-Theoretical Perspective . . . . .	181
8.2.1	Structural Organization . . . . .	182
8.2.2	Process Organization . . . . .	183
8.2.3	Hybrid Organizational Structures . . . . .	183
8.3	Business Process Re-engineering . . . . .	184
8.4	Business Process Optimization . . . . .	186
8.5	Business Process Modeling . . . . .	189
8.6	Event-Driven Process Chains . . . . .	190
8.7	Business Process Modelling Notation (BPMN) . . . . .	196
8.8	Workflow Computing . . . . .	198
8.9	Process Mining . . . . .	200
8.10	Review Questions . . . . .	203
	References . . . . .	205
<b>9</b>	<b>Software Engineering</b> . . . . .	207
9.1	Subject and Objectives . . . . .	208
9.2	The Design Process . . . . .	209
9.2.1	Process Models . . . . .	210
9.2.2	Agile Software Development . . . . .	216
9.2.3	Influencing Factors . . . . .	219
9.3	Objectives in Software Engineering . . . . .	220
9.4	Programming Languages at a Glance . . . . .	221
9.4.1	Creation of Programs . . . . .	221
9.4.2	Generations of Programming Languages . . . . .	222
9.4.3	Programming Environments . . . . .	224

9.5	Object-Oriented Software Engineering . . . . .	226
9.5.1	Key Concepts in Object Orientation . . . . .	226
9.5.2	Phases in Object-Oriented Software Engineering . . . . .	229
9.6	Expense Estimate . . . . .	231
9.6.1	Basic Problems . . . . .	232
9.6.2	Influencing Factors . . . . .	233
9.6.3	Methods and Procedures . . . . .	235
9.7	Project Management . . . . .	239
9.8	CPM Example . . . . .	242
9.9	Review Questions . . . . .	244
	References . . . . .	245
<b>10</b>	<b>Information Management . . . . .</b>	<b>247</b>
10.1	Introduction to Information Management . . . . .	248
10.2	Relevance and Key Terminology . . . . .	250
10.3	Organizational Embedding . . . . .	254
10.4	The CIO as Innovation Leader . . . . .	256
10.5	Tasks and Objectives of Information Management . . . . .	260
10.6	Outsourcing . . . . .	264
10.7	Social Media and Social Networks . . . . .	269
10.7.1	Basics of Social Media . . . . .	270
10.7.2	Applications of Social Media . . . . .	270
10.7.3	Structure and Design of Social Media . . . . .	271
10.7.4	Opportunities and Risks of Social Media . . . . .	273
10.8	Data Management and Data Science . . . . .	274
10.8.1	Data Management and Data Governance . . . . .	274
10.8.2	Data Science . . . . .	275
10.9	Review Questions . . . . .	276
	References . . . . .	277
<b>11</b>	<b>Data Security and Data Protection . . . . .</b>	<b>281</b>
11.1	IT Security Management . . . . .	282
11.2	Data Security: Dangers, Threats and IT Risk Management . . . . .	283
11.3	IT Security Objectives . . . . .	287
11.4	Data Protection . . . . .	289
11.5	Selected Measures for Data Security . . . . .	293
11.5.1	Cryptography . . . . .	295
11.5.2	Measures for Authentication and Authorization . . . . .	301
11.5.3	Firewalls for Securing Computer Networks . . . . .	302
11.5.4	Selected Security Monitoring Measures . . . . .	303
11.5.5	Organizational Security Measures . . . . .	304
