

## Contents:

<b>1. Orlik-Kozdoń B.</b> <i>The influence of leakage of insulating layer on thermal parameters of ethics system. ....</i>	7
<b>2. Zarzeka-Raczkowska E., Raczkowski A., Pomorski P.</b> <i>Technical and economic analysis of thermal modernisation process of a detached house .....</i>	20
<b>3. Łapko A., Baj A.</b> <i>Modelling of freezing and thawing effect on the deflections of RC beams made of recycling aggregate concrete. ....</i>	28
<b>4. Nikitsin V., Backiel-Brzozowska B.</b> <i>On taking wind-driven rain and capillary characteristics of materials into account while calculating dampness of shielding structures for buildings. ....</i>	36
<b>5. Budzyński W., Góra J.</b> <i>Ecological and economic aspects of the impact of the type of coarse aggregate on strength properties of concrete .....</i>	47
<b>6. Barnat-Hunek D., Kowalczyk A., Stankiewicz K.</b> <i>Review of research on recycling of waste materials to produce bricks through firing. ....</i>	59
<b>7. Chudzicki J., Malesińska A.</b> <i>Design requirements for water supply and sewage systems in the energy savings certificates in the construction industry.....</i>	70
<b>8. Tur V., Drahan A.</b> <i>Modeling of cracking behaviour of RC-members based on the bond-slip relation for bonded reinforcement .....</i>	80
<b>9. Fic S., Brzyski P., Szeląg M.</b> <i>Possible applications of natural fiber and straw of flax and hemp in the construction industry.....</i>	92
<b>10. Szczygielska E.</b> <i>Conformity testing of concrete compressive strength based on overlapping groups.....</i>	101
<b>11. Urbański M., Łapko A.</b> <i>Effectiveness of flexural basalt reinforcement application in RC beam structures .....</i>	113
<b>12. Malesza M., Miedzialowski C., Malesza J.</b> <i>New approach in construction of the wood-framed residential buildings .....</i>	124

<b>13. Smarzewski P.</b> <i>Experimental analysis of high performance fibre reinforced concrete plates.....</i>	137
<b>14. Łapko A., Wasilczyk R.</b> <i>The ultimate fatigue state of rc structures according to model code 2010.....</i>	146
<b>15. Fic S., Barnat – Hunek D., Karwacka A.</b> <i>Waterproof impregnation of ceramic brick with emulsions of low voc content .....</i>	156
<b>16. Tur V., Semianiuk V.</b> <i>Self-stressed concrete members reinforced with frp-bars.....</i>	165
<b>17. Krassowska J., Łapko A.,</b> <i>Analysis of shear capacity of steel fiber reinforced concrete beams .....</i>	179
<b>18. Suchorab Z., Zarzeka-Raczkowska E.,</b> <i>Determination of saturated water conductivity coefficient in building materials .....</i>	192
<b>19. Raczkowski A., Suchorab Z., Kucharczyk G.,</b> <i>Modeling of air-flow in assembly hall supported by mechanical ventilation system .....</i>	198
