PART 1 Introduction to Programming Using MATLAB

CHAPTER 1	Introduction to MATLAB	3
1.1	Getting into MATLAB	4
1.2	The MATLAB Desktop Environment	5
1.3	Variables and Assignment Statements	6
1.4	Expressions	10
1.5	Characters and Encoding	19
1.6	Vectors and Matrices	21
CHAPTER 2	Introduction to MATLAB Programming	45
2.1	Algorithms	46
2.2	MATLAB Scripts	47
2.3	Input and Output	49
2.4	Scripts with Input and Output	57
2.5	Scripts to Produce and Customize Simple Plots	58
2.6	Introduction to File Input/Output (Load and Save)	63
2.7	User-Defined Functions That Return a Single Value	68
CHAPTER 3	Selection Statements	83
3.1	Relational Expressions	83
3.2	The If Statement	87
3.3	The If-Else Statement	91
3.4	Nested If-Else Statements	93
3.5	The Switch Statement	98
3.6	The Menu Function	100
3.7	The “Is” Functions in MATLAB	102
CHAPTER 4	Loop Statements	115
4.1	The For Loop	116

	4.2 Nested For Loops	128
	4.3 While Loops	139
CHAPTER 5	Vectorized Code	155
	5.1 Loops with Vectors and Matrices	155
	5.2 Operations on Vectors and Matrices	156
	5.3 Vectors and Matrices as Function Arguments	159
	5.4 Logical Vectors	160
	5.5 Vectorizing Code	166
	5.6 Timing	171
CHAPTER 6	MATLAB Programs	177
	6.1 More Types of User-Defined Functions	177
	6.2 MATLAB Program Organization	186
	6.3 Application: Menu-Driven Modular Program.....	191
	6.4 Variable Scope	197
	6.5 Debugging Techniques.....	202
CHAPTER 7	String Manipulation	215
	7.1 Creating String Variables	215
	7.2 Operations on Strings	218
	7.3 The “Is” Functions for Strings	234
	7.4 Converting Between String and Number Types.....	234
CHAPTER 8	Data Structures: Cell Arrays and Structures	245
	8.1 Cell Arrays	246
	8.2 Structures.....	252
CHAPTER 9	Advanced File Input and Output.....	277
	9.1 Lower-Level File I/O Functions.....	278
	9.2 Writing and Reading Spreadsheet Files.....	291
	9.3 Using MAT-Files for Variables.....	293
CHAPTER 10	Advanced Functions	301
	10.1 Anonymous Functions	301
	10.2 Uses of Function Handles.....	303
	10.3 Variable Numbers of Arguments	306
	10.4 Nested Functions	312
	10.5 Recursive Functions.....	313
PART 2	Advanced Topics for Problem Solving with MATLAB	
CHAPTER 11	Advanced Plotting Techniques.....	327
	11.1 Plot Functions.....	327

11.2 Animation	334
11.3 Three-Dimensional Plots	335
11.4 Customizing Plots	339
11.5 Handle Graphics and Plot Properties	341
11.6 Plot Applications	351
CHAPTER 12 Matrix Representation of Linear Algebraic	
Equations	367
12.1 Matrix Definitions	368
12.2 Matrix Solutions to Systems of Linear Algebraic	
Equations	381
CHAPTER 13 Basic Statistics, Sets, Sorting, and Indexing	401
13.1 Statistical Functions	402
13.2 Set Operations	408
13.3 Sorting	412
13.4 Index Vectors	419
13.5 Searching	422
CHAPTER 14 Sights and Sounds	435
14.1 Sound Files	435
14.2 Image Processing	437
14.3 Introduction to Graphical User Interfaces	446
CHAPTER 15 Advanced Mathematics	473
15.1 Fitting Curves to Data	473
15.2 Complex Numbers	481
15.3 Symbolic Mathematics	488
15.4 Calculus: Integration and Differentiation	495
INDEX	511
